PERMITTEE:
DLAC-WRI, LLC
1819 ALBERT STREET
JACKSONVILLE, FLORIDA 32202

I.D. NUMBER: FLD 101 877 876
PERMIT NUMBER: 0079677-HH-011
DATE OF ISSUE: September 26, 2013
EXPIRATION DATE: August 6, 2023

ATTENTION:
Mr. Greg Reynolds
Vice President and General Manager

COUNTY: Duval
PROJECT: To Continue HSWA Corrective Action

Pursuant to authorization obtained by the Florida Department of Environmental Protection (FDEP) under the Resource Conservation and Recovery Act [42 United States Code (U.S.C.) 6901, *et seq.*, commonly known as RCRA] and the Hazardous and Solid Waste Amendments of 1984 (HSWA), this permit is issued under the provisions of Section 403.722 Florida Statutes (F.S.), and Chapters 62-4, 62-160, 62-730, 62-777 and 62-780 Florida Administrative Code (F.A.C.). This permit replaces expired permit 79677-HF-007. The above-named Permittee is hereby authorized to perform the work or operate the facility shown on the application dated March 21, 2013 and referred to as the “permit application.” The permit application also includes any approved drawing(s), plans, and other documents that are specifically identified and incorporated by reference. Solid waste management units (SWMUs) and areas of concern (AOCs) identified to date are listed in Appendix A. The RCRA-regulated units, permitted units or permitted activities are specifically described as follows.

Physical Closure has been completed by the units described in Appendix A.4, including clean closure of the RCRA regulated unit. Groundwater corrective action continues at this area; a small plume with elevated concentrations of vanadium and arsenic. Contaminated soils were excavated at the units described in Appendix A.6 and this permit records site rehabilitation completion at these units.

The Permittee is required to investigate any releases of contaminants to the environment at the facility regardless of the time at which waste was placed in a unit and to take appropriate corrective action for any such releases. Pursuant to 40 Code of Federal Regulations (CFR) 260.10 [as adopted by reference in Subsection 62-730.020(1), F.A.C.], the corrective action requirements of this RCRA permit extend to all property under control of the Permittee (see Attachment A, a map of the property boundaries of the land under the Permittee’s control) and to all contamination that originated from discharges at the property under control of the Permittee.

This permit is based on the premise that information and reports submitted by the Permittee prior to issuance of this permit are accurate. Any inaccuracies found in this information or
